QUALITY POLICY

As Management, with the understanding that **"ensuring that the quality management approach is embraced by all employees"**, we adopt and commit to the following as our Quality Policy:

- To continuously develop a management system culture appropriate to our organization in line with our Total Quality objectives,
- To closely monitor and implement technological developments in order to reduce costs and increase profitability,
- To prevent potential nonconformities by developing the most appropriate, accurate, and economical solutions as quickly as possible,
- To maximize customer satisfaction by fulfilling customer requirements,
- To enhance our skills and quality awareness through training,
- To continuously improve the quality of services and materials by establishing mutually beneficial relationships with our suppliers,
- To continuously review our objectives and practices in light of developments,
- To implement and sustain a nuclear safety culture at every stage of our factory operations,
- To ensure that quality and nuclear safety are never compromised in achieving our organizational, cost, and schedule targets.

Our quality objectives are to reduce customer complaints, increase efficiency, reduce costs, and reflect these cost reductions to our customers.

İrfan SELÇUK

General Manager
